1. Training For Recruiters And Tech Recruiters

General Description

A comprehensive training program to equip Recruiters and Tech Recruiters with essential skills for attracting, securing, and retaining top tech talent through strategic sourcing techniques, talent assessment, crafting effective recruitment strategies for tech jobs, and consulting on HR and global recruitment. The learning path focuses on full-cycle tech recruitment, enabling talent acquisition professionals to have maximum strategic impact in their organizations.

Program Structure

Our comprehensive Training Program for Recruiters and Tech Recruiters is structured to equip professionals with the essential skills and knowledge in talent acquisition. Our program is divided into four modules tailored to address the core components of recruiting:

01

Talent Sourcing Module

The first module empowers recruiters with advanced sourcing strategies, including market mapping, job optimization, niche community engagement, personal branding, and advanced search techniques.

03

Candidate Assessment Module

The second module equips recruiters to assess technical skills and organizational fit through technical screenings, competency-based interviews, test interpretation, and qualitative and quantitative shortlisting.

02

Candidate Experience Modul

The third module focuses on securing candidates by delivering an exceptional experience through compelling value propositions, relationship-building, onboarding alignment, and gathering candidate feedback.

02

Specialization Module

The fourth module enables advanced strategic consulting capabilities for tech recruiting, including support for international expansion, cross-cultural training, rapid project scaling, and long-term recruitment blueprinting.

2. Staff Leasing Of Professionals General Description

Staff leasing provides flexible temporary staffing of professionals across various industries, offering clients lower-risk solutions to efficiently meet specialized expertise and workforce needs, with the option to directly hire leased staff following personal assessments and transitions. We serve companies from startups to multinationals by supporting diverse personnel requirements, from individual experts to entire teams and units.

Program Structure

Our Staff Leasing of Professionals program offers a structured approach to meet your staffing needs with precision and adaptability. Divided into four modules, our program ensures seamless management of your workforce from start to finish:

Transitions

As needed, leased staff can transition to permanent roles through structured hiring processes. We also facilitate smooth offboarding and replacement planning to meet evolving needs.

Ongoing Consulting

Beyond staff leasing, we offer continued talent pool access and strategic consulting to optimize your workforce model in alignment with organizational priorities. This enables securing niche, in-demand capabilities without the upfront investments of traditional hiring - providing maximum flexibility and strategic value as a talent partner.

Needs Assessment

We partner with leadership to:

1. Map current and projected talent gaps
2. Define essential roles and requirements
3. Analyze budget needs
4. Develop a staff leasing strategy

Sourcing and Screening

Leveraging our vast professional network and proprietary matching capabilities, we:

1. Source expert candidates
2. Screen for technical abilities, cultural alignment, and other key success factors

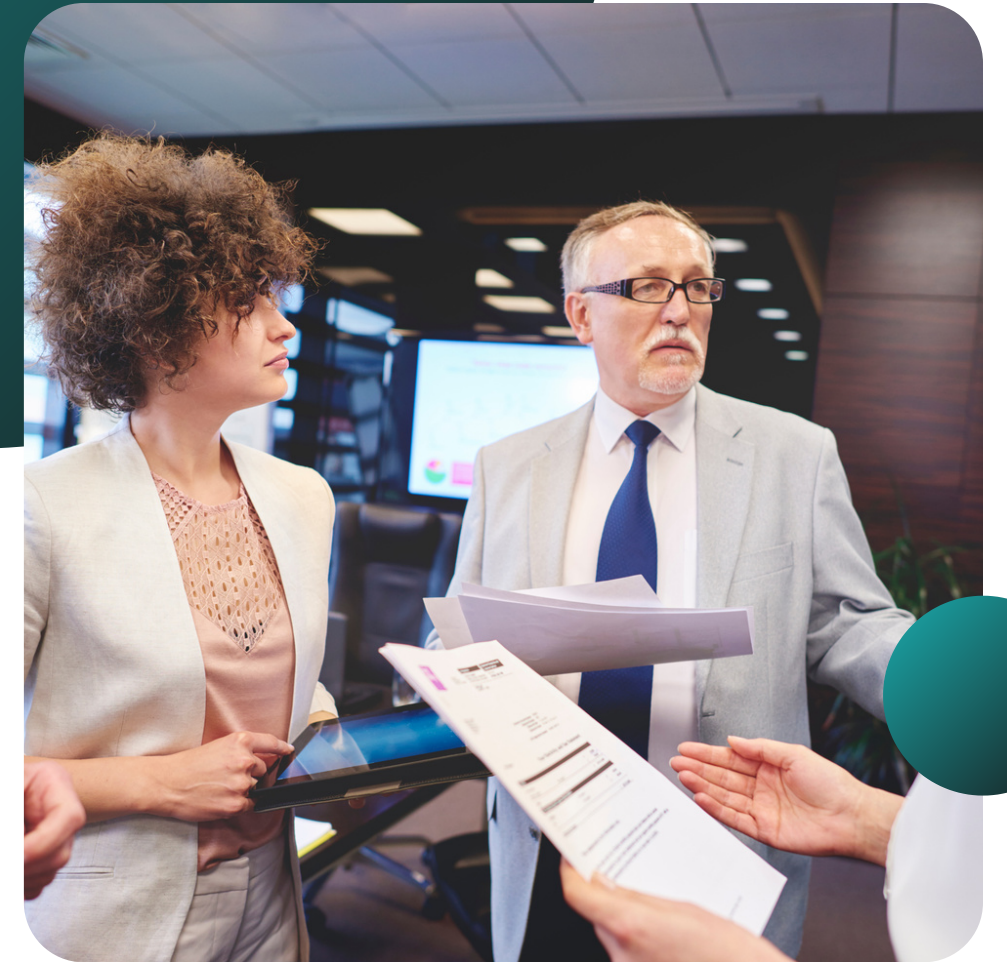

Onboarding

We handle all contracting, onboarding, payroll, compliance, and worker integration support to provide a seamless leasing experience, including:

1. Real-time performance dashboards
2. Turnkey support services
